# ANVIL

## HOT TAP

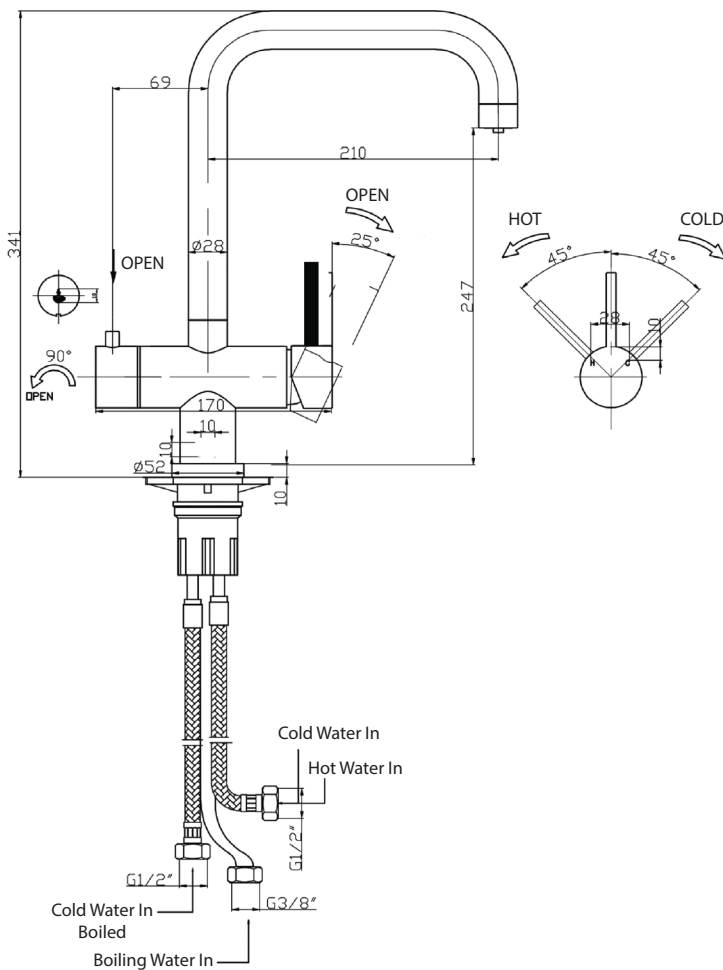

- Introducing Aquamatic's first 3 in 1 instant hot water kitchen tap
- This versatile solution provides hot, cold and 98°C filtered boiling water.
- Dedicated purifying water filter provides optimum taste and odour enhancement through premium chlorine reduction and phosphate crystals for scale reduction and tank protection.
- Childproof boiling water handle includes a safety button and springback function, ensuring the boiling water flow stops immediately when released.
- Adjustable temperature setting up to 98°C
- 2.4 litre tank capacity holds enough water for over 10 (225ml) cups of tea or coffee at any time
- Unique heat insulation technology keeps the spout cool to the touch
- Bespoke Neoperl aerator, manufactured specifically for a soft, splash-free flow of water.
- Fully WRAS approved and NHBC building regulations compliant.
- Compact tank, fits neatly into most undersink cupboards.
